

## **THE IAI ARE LOOKING FOR VOLUNTEER TRANSLATORS FOR HOUSING RIGHTS WITHOUT FRONTIERS!!!**

The International Alliance of Inhabitants are looking for volunteer translators to broaden the group of "Volunteer Translators for the Right to Housing" thus providing both the necessary translations for the site, as the need for interpretation at scheduled events for all the language combinations supported at the site (Spanish, English, French, Italian, Portuguese, Russian).

All translations are performed using the translators' native language as target.

Volunteer Translators can enjoy a dedicated website where online tools and resources can be found to support their commitment.

### **Fill the form!**

We want to promote and enhance the communication among the thousands of organizations that defend the right to housing, counting on the increasingly useful and indispensable resource at **[www.habitants.org](http://www.habitants.org)** as for the exchange and solidarity.

2010 is the year we intend to lay down the solid foundations of the World Assembly of Inhabitants (World Social Forum, Dakar 2011), a proposal which has the support of over 320 organizations from over 40 countries, including the support of major international networks for the right to housing. This is a process participation developed through meetings which have taken place in many countries on all continents, requiring harmonization of experiences and knowledge sharing development.

We also encourage the participation of your colleagues and friends!
